Alexis Arrives.

By Associated Press.
PARIS, Aug. 11.—There is scarcely a doubt that the non-arrival here yesterday of the Grand Duke Alexis was entirely due to his disinclination to be the recipient of the enthusiastic welcome the citizens of Paris prepared for him. The crowd learned he would not arrive yesterday, but they did not learn when he would reach Paris, and consequently when the train in which he traveled rolled into the station this morning, no one was present, officially or unofficially, to receive him. As he reached the platform he was recognized by a crowd of at least a thousand people. The greeting they gave the Grand Duke was enthusiastic. The Grand Duke, bowing and smiling at the warmth of his welcome, despite his attempt to avoid it, entered a carriage and was immediately driven to a hotel.

LONDON, Aug. 11.—This morning the Times published a dispatch from a Paris correspondent, confirming the non-arrival of the Grand Duke Alexis in Paris yesterday at the time designated was intentional. The dispatch adds the reason for the change in the Grand Duke's published program may be that Russia wished to show Germany she is still open to office if Germany outside France.

A Holocaust.

By Associated Press.
LANGRIS, (N. D.), Aug. 11.—At Griswold, Langrue county, sixteen miles north of here, on Sunday night Mrs. Herman Boeller was burned to death in bed, the log shanty evidently having been fired. The barn was also burned, although separated from the house. Wilhelm Boeller, her father-in-law, is missing and it is thought he may be in the ruins of the barn. It is believed Wilhelm set fire to the dwelling after killing his daughter-in-law and has taken his own life.

Hottest in Twenty Years.

By Associated Press.
NEW YORK, Aug. 11.—Ninety-four in the shade was registered by the thermometer at noon today. This is the hottest day of the season and the hottest August in twenty years. Sunstroke carried off directly or indirectly a dozen persons in the last twenty-four hours and the hospitals are filled by others. Suffering with the heat is intensified by the plague of mosquitoes. At 2 o'clock this afternoon a thunder storm relieved the oppressiveness somewhat.

Sealing Schooner Retained.

By Associated Press.
VICTORIA (B. C.), August 11.—The sealing schooner C. D. Band has returned to Vancouver from Bering Sea. She was seized by the Rush and taken to St. Paul's Island, where she was released and ordered home. Captain Alcock of the schooner states that the waters around St. Paul's Island swarmed with seals, but the effort from the carcasses of seals which had been killed and left exposed would prove detrimental to the others.

Yellow Fever.

By Associated Press.
NEW YORK, August 11.—A Port-au-Prince dispatch says it is impossible any longer to conceal the fact that an epidemic is raging there. A sailor on board the French man-of-war Diore was stricken with violent fever a few days ago and he died and was at once buried. Others among the crew of the vessel are down with the disease. The doctors pronounce the disease the same as yellow fever.

Railroad Collision.

By Associated Press.
PORT WATKINS, Ind., Aug. 21.—Early this morning a passenger train of the north bound crashed into a freight at Bryant, Ind. Engineer Dick and fireman Brown of Ft. Wayne were killed. The engine and baggage car of the passenger train, and eight freight cars were demolished. The accident was caused by the failure of the freight crew to properly signal.

The Chili Rebels.

By Associated Press.
CHICAGO, Aug. 11.—An Iquique correspondent has been over the whole Congressional field within the last few days and was astonished at the great change for the better which had taken place in the condition of the insurgent party. From all that he had seen and heard, he was led to the confident belief that in their expedition to the south the Congressional forces will meet with success and prove victorious over the forces of Balmaceda. Every indication points that way. The army is admirably drilled, and in some way or another the Itata, notwithstanding, has been fully armed. The Insurgents' ranks are swelled by large accessions of volunteers from the mining districts of Antofagasta and Caldera. The utmost unanimity prevails among the leaders of the Congressional party. Balmaceda's issue of votes for 1891 is refused at all northern points held by the Junta. Much feeling is expressed here at the delay in the case of the Itata. It is thought the matter should have long ago been settled and the Itata released. Unless Balmaceda gets his two new cruisers soon his foe will, unless all appearances are deceptive, gain a substantial advantage over him. There is no doubt there are many unwilling soldiers in Balmaceda's ranks, men coerced to serve against their will, many of them at heart in sympathy with the Insurgents. It will not take much to put them to flight.

The Balmaceda Side.

By Cable and Associated Press.
LONDON, Aug. 11.—A cable dispatch from a Balmaceda source in Santiago de Chile is received here denying the reports of fighting having taken place between government troops and insurgent forces at Valparaiso Rix, and Coquimbo. On August 3rd, according to these dispatches, the government torpedo boat, Admirante Condell, attacked the congressional party's cruiser Esmeralda, and a number of torpedoes were discharged from the Admirante Condell, but as the attack was made at night and it was very dark, the results were not known. None of the rebel vessels have since been seen near the provinces by President Balmaceda. The dispatches further state that reports as to the relations between Chili and Bolivia, growing out of the latter's recognition of the insurgents as belligerents, is untrue, and that the stories of cruel punishments inflicted by the government is a pure invention.

Funeral of Bishop Flaseh.

By Associated Press.
LA CROSSE (Wis.), Aug. 11.—The funeral of Bishop Flaseh took place here today under the direction of Archbishop Katzer of Milwaukee, assisted by several Bishops and one hundred and seventy five priests from abroad. Three thousand people witnessed the ceremonies in the church and the procession to the cemetery was one of the largest ever seen here.

G. A. R. Encampment.

By Associated Press.
SAN DIEGO, Aug. 11.—The seventh inspection of the district encampment of the G. A. R. was formally opened today on Coronado beach. Visitors are arriving on every train and the attendance promises to be unusually heavy. The encampment lasts ten days. It was opened this morning with speeches and exercises at the Coronado hotel.

The Oldest Odd Fellow.

By Associated Press.
SALEM (Or.), August 11.—Henry Armstrong, aged 80 years, died this morning. It is conceded that Armstrong was the oldest living Odd Fellow in the United States, both in respect to years of life and years of membership in the order, he having been initiated into the mysteries of the order in 1834.

An Argonaut Gone.

By Associated Press.
AUBURN, Aug. 11.—E. E. Gordon, a pioneer of '49 and a leading resident of this city and a large property owner in Yolo county, died this morning. The remains will be taken to Yolo county for interment.

Storm in Texas.

By Associated Press.
HOUSTON, Aug. 11.—Reports from Yokum and Lexington state terrible storms swept over those sections yesterday. Houses were unroofed and blown down and stock killed.

Foreclosure.

By Associated Press.
NANTUCKET, Aug. 11.—A bill was filed by the Atlantic Trust Company of New York for the foreclosure of a mortgage of \$60,000 against the South Tredogan Iron Company.

Storm in Indiana.

By Associated Press.
INDIANAPOLIS, Aug. 11.—The storm which raged in this county last evening did incalculable damage to the crops and property generally.

The Irish Secretary.

By Cable and Associated Press.
LONDON, August 11.—Balfour, Chief Secretary of Ireland, in a speech delivered at Plymouth yesterday, outlined his ideas of Irish local government. Many members of the Conservative party disliked the proposal, but he argued there were two reasons why local government should not be withheld from Ireland. First, a sentimental one, because it had already been given by England, and, second, because local government has been repeatedly promised Ireland.

Balfour said it would be madness to allow the councils to administer the funds of any class not represented in these bodies. Such permission would convert them into engines of tyranny and oppression.

The police question, Balfour continued, caused alarm, but he would never consent to the decentralization of the force by handing over to the local police either to councils or to councils in association with the Grand Jury. He further believed there would be no serious attempt by the counties to secure control of so costly a force. He was compelled to admit he feared the first result of the change would be to oust the landlords from their share in the government, even though they guarded the councils by some form of minority representation. This is to be deplored, but he trusted and believed these gentlemen, if they remained, would be largely recognized and elected as the best men to carry on the country business, and thus reconcile the classes which have been too much and too long separated.

PREREQUISITES.

LONDON, August 11.—The Standard says Balfour's declaration regarding the Irish police removes the gravest objection to the bill, but still there remains a great deal to justify the Irish loyalist misgivings, and that it will be desirable to introduce stringent measures to guarantee an upright management of finances.

The Times says: His clear, vivid perception of the dangers of the scheme is the best possible guarantee that Balfour is fit to cope with and conquer them.

The News says: We gather from Balfour's vague remarks, thereby fancy franchises and no artificial restrictions upon the choice of electors, however ingeniously framed, the bill will enormously strengthen the demand for home rule and more crimes, and a more ridiculous farce than ever.

The Chronicle presumes the intention is to make the Irish franchise narrower than English. The Chronicle emphatically opposes any such policy. Ireland, it says, is entitled to absolute equality.

Rumors Regarding Royalty.

By Associated Press.
BERLIN, August 11.—Alarming rumors in regard to the health of Emperor William continue to gain currency in Berlin and other German centers, notwithstanding previous rumors semi-officially denied. It is believed those rumors were spread by speculators for the purpose of depressing prices on the Bourse.

A Woman Scorned.

By Associated Press.
KANSAAS CITY, Aug. 11.—Richard M. Juvenal's residence in Kansas City, Kansas, was wrecked by an explosion of dynamite last night. The occupants escaped any serious injury. From all accounts, the explosion was caused by a woman with whom Juvenal kept company before his marriage.

Democratic Clubs.

By Associated Press.
NEW YORK, Aug. 11.—It was decided at a meeting of the Executive Committee of the National Association of Democratic Clubs to hold the next convention sixty days after the National Democratic Convention.

Nationally Sick.

By Associated Press.
BOERON, Aug. 11.—The condition of James Russell Lowell took a decided turn for the worse this morning. He is now considered dangerously ill and his physicians see little chance for his recovery.

Canadian Cabinet Change.

By Associated Press.
OTTAWA, Aug. 11.—The Citizen, the government organ, said editorially this morning that Sir Hector Langevin, Minister of Public Works, will appear before the Privileges and Elections Committee for the purpose of making a statement in connection with the McGreevy inquiry. It is understood the honorable gentleman tendered his resignation as minister of the crown, considering it was his duty to Parliament, to the government and to the committee. Sir Hector has been the leader of the French Canadian Conservatives for many years. He has been honored by men of all classes, creeds and sections. We look for his triumphant vindication as the unpleasant proceedings terminate.

The announcement of his resignation from the Cabinet produced a profound sensation in all political circles, as it was totally unexpected. Sir Hector appeared before the Committee on Privileges and Elections this afternoon and read a long and carefully prepared statement in which he denied emphatically all charges preferred against him and asserted his entire innocence.

The Senate railway committee did not make any progress today with the Bae Des Chaleurs railway scandal. None of the witnesses appeared. Eugene Placa, so it is said, left for Europe.

People's Party of Maryland.

By Associated Press.
BALTIMORE, Aug. 11.—The convention of the People's Party of Maryland opened here today. It was conducted with closed doors and information of what was done will be given out by the committee on publication, which committee had not been appointed when the recess was taken at three o'clock. The convention will last for two days and the present officers will serve until its close, as officers for the ensuing year will not be elected until just prior to the final adjournment. There were only fifty delegates present, but these claim to represent a constituency which believes it can control the next legislature.

Fishish Poisoners.

By Associated Press.
MINNEAPOLIS, Aug. 11.—The Tribune has a special from Seattle, Washington, saying Willie Lytle, 18 years old, the boy supposed to have been slowly poisoned, died at Providence yesterday. Suspicion was raised that the parents poisoned the boy to get property left to him by relations. A chemical analysis of the stomach will be made, and if the poison is found, the parents will be arrested.

Rain Production.

By Associated Press.
CHICAGO, August 11.—C. R. Farwell today received a telegram from Prof. Dyhrenfurth, in charge of the rain production experiments provided for by the last Congress, which is now being conducted on the ranch of Nelson Morris of this city in Texas. The Professor says that at the first experiment made yesterday, the clouds began to gather and that it is raining heavily there today.

Opium Seizure.

By Associated Press.
REDDING (Cal.), Aug. 11.—Officers Brown and Nelson of the secret service seized \$9,000 worth of opium in Shasta yesterday and broke up nine furnaces employed in manufacturing from crude material. The Chinamen had selected an out of the way place, and the existence of the plant was unknown to the people of Shasta.

Carver Sued.

By Cable and Associated Press.
BERLIN, August 11.—The Berliner Tageblatt today states that Friedlander Bros., jewelers of this city, have instituted proceedings against Dr. Carver, the American marksman, for obtaining credit for jewelry to the value of \$3,225 and then absconding. Dr. Carver's whereabouts are unknown.

Illinois Cyclone.

By Associated Press.
LINCOLN (Ill.), Aug. 11.—A cyclone prevailed in the southeastern part of Logan county Monday afternoon. The crops in its path, barns, houses and other buildings were damaged. At Latham a new elevator about completed was leveled. The loss is estimated at \$60,000.

Grave Robbers.

By Associated Press.
NEW YORK, August 11.—A Sunbury (Pa.) special declares grave robbers made a daring attempt to steal the corpse of the late ex-Congressman Parker from the Sunbury Cemetery early Sunday morning. The ghosts were driven away by a railroad man.

Wall of Sympathy.

By Cable and Associated Press.
LONDON, Aug. 11.—Commenting on the falling off of exports to the United States, says the McKinley law has been a severe blow to some branches of trade, but the chief sufferer will be the country which was so unwise as to establish it.

Charleston to China.

By Associated Press.
VALLEJO, Aug. 11.—The Charleston has been ordered to Yokohama to sail on the 18th. She will go on dry dock and be given a new coat of paint. The Monocacy is the only ship in Chinese waters, and is old fashioned, but is the best vessel to go on inland rivers to the seat of interior troubles. There are a few minor repairs to make on the Charleston. Ten sailmakers were put to work on her sails to-day and sea stores are being taken on. A complement of men went on board yesterday from the barracks and receiving ship. The engines were to be completely overhauled, but this is postponed by these orders.

Funeral of Judge Hoffman.

By Associated Press.
SAN FRANCISCO, Aug. 11.—The funeral of the late United States District Judge Ogden Hoffman took place from Trinity Church to-day, and was attended by Justice S. J. Field of the U. S. Supreme Court, Circuit Judges Sawyer, Ross and Beatty, Chief Justice Beatty of the State Supreme Court, Brigadier-General Ruger and others. The remains were taken to San Rafael for interment.

Champion Athlete.

By Associated Press.
ST. CATERINES (Ont.), Aug. 11.—At the amateur athletic association meeting here George R. Gray, of the New York Athletic Association, took first prize at putting shot. He beat the world's record with both sixteen and twenty-one pound shot.

Kansas Wheat.

By Associated Press.
TOPEKA (Kan.), Aug. 11.—McGrath, President of the Farmers' Alliance, has returned from a trip through the West. He says a large amount of wheat is being held by farmers with the expectation that the price will materially advance.

Paying Up.

By Associated Press.
ATLANTIC CITY (N. J.), Aug. 11.—The People's Savings Bank, which failed last winter, has announced a dividend of 30 per cent to depositors. This makes 60 per cent already paid to depositors.

A Rye Ukase.

By Cable and Associated Press.
ST. PETERSBURG, Aug. 11.—A ukase has been issued prohibiting from August 27th the exportation from Russia of rye and rye meal of all kinds and brands.

Died.

Jack Fraser received the sad news of the death of his mother this morning, who passed away in Hinesburg, Vt., on July 28th, at the ripe age of 89 years. She left six sons and four daughters to mourn her taking off. Mr. Fraser has the sympathy of this community.

A Hot Trail.

Sheriff W. H. Coughlin returned last night from a few days' hunt for Bush, the jail escape prisoner. He was only a few hours behind the fugitive at Chico, but the fellow managed to make good his escape.

Dr. Wm. Ellery Briggs of Sacramento, an oculist, aurist and laryngologist will be at Dr. Thomas's office in Reno from August 16th for one week, and any one in need of his services can see him by calling there.

DIED.

FRASER—At Hinesburg, Vermont, July 26, 1891, Mrs. Alice Fraser, aged 89 years, 2 months and 24 days.

5 O'CLOCK EDITION.

THE San Francisco Argonaut has a burning editorial on old Mrs. Hopkins-Searies' will that shows the selfish woman up in her true light. It closes as follows:

"The questions that may arise in case of a contested will might be as stirring in Massachusetts as in California; and there is no sensible, level-headed jurymen within the boundary of civilization who will listen with indifference to the narrative of strange events that have enabled a handsome, blue-eyed paper-hanger, of quiet and seductive manners, to secure an amorous old woman of seventy-three years in marriage, and, by the aid of lawyers and railroad manipulators, to get away with seventy millions of wealth. The inner life of this unfortunate lady may yet be heard from those who loved and served her when their affections and duty were not subject to the suspicion of mercenary and selfish motives. If there has been any restraint to which Mrs. Hopkins-Searies has been subjected in her declining years, and any undue influence exerted over her mind to cause her to display ingratitude to her kindred, forgetfulness of her duty to the son of her adoption—if there is any mystery in her death, there will be no impropriety in her son's appeal to the law in Massachusetts or California to unravel and explain the romance, with a tragic ending, that has thrown upon her character the stain of ingratitude and cruel indifference to all those moral obligations that would have kept her memory green in the minds of honest and honorable men and women in all ranks of life.

THE Bulletin says: "An Ohio Fish Commissioner has killed a fisherman engaged in illegal seining. It may not come to that in California, but if fishermen continue violating the law in the future as in the past something will have to be done. Presumably our Commission and its employees are active, but there is a great deal of water to be covered, and a great many of our fishermen, especially the Chinese, cannot be trusted out of sight."

Two years ago the Nevada and California Legislatures both passed laws in the interest of fish in the Truckee river. The law, however, is almost a dead letter so far as its provisions apply to keeping the saw-dust out of the river.

JUDGE HOFFMAN's death has created a vacancy in the United States judiciary on this coast, which the prominent attorneys consider it will be difficult to fill. The deceased jurist has for years had charge of all the revenue and admiralty cases, and there are only a few attorneys out of the vast number practicing who make any feature of that part of the practice.

Whom has Nevada got to present to the Administration for consideration? THE GAZETTE takes the liberty of playing in nomination the Hon. J. E. Cheney and the Hon. Richard Rising. Both or either of these gentlemen would fill the position with credit to themselves and honor to the State.

THE Board of Trade asks the co-operation of the editors of the State upon the matter of suppressing fruit pests and suggests that, with their accustomed enterprise and public spirit, they give such space as they may find the subject worthy of from time to time. Our fruit crop is just growing into importance, and if it is cared for will add largely to the wealth of the State. The newspapers can do much to secure success in the matter, and their ever ready aid is much needed now.

A NUMBER of commercial bodies in Germany have already decided to send exhibits to Chicago, while some others have refused, including some wool manufacturers. If they propose to abandon the American market, domestic manufacturers will have to increase their output to meet the demand and will naturally compete with each other to secure trade.

A COMPLEX CREATURE.

Some of the Remarkable Traits of the Starfish.

"The attack of a starfish upon an oyster may be likened to an assault by organized conspirators, inasmuch as each of these five-fingered animals is composed of five distinct individuals," said a scientist to a Washington Star man. "Each of the starfish's five arms has its own mind, nervous system and thoughts, such as they are, and all five nerve systems simply meet in the center where the arms are joined. Thus it may be said that the mental guidance of this complex creature and the management of its affairs are entrusted to a board of five members, who have communication with each other, but act without the intermediation of a presiding officer. Now, is it not wonderful that such a quintet should be able to manage its affairs so well and with such agreement of purpose in everything? Supposing that each of the five individuals attempted to go where it listed without giving any heed to the others, the animal could not reach a choice bit of food, could not move far with the eye of one of its members, nor travel in any direction with a purpose in view. But as a matter of fact, proved by observation, when a starfish is spying for food it lifts the end of its five arms so that the eye beneath each extremity may get a view of things in the neighborhood, and if any object worth going after is discovered all the many hundreds of sucker-like feet beneath the five arms are seen to push out together in the direction of the morsel desired. There is a unity of intention among the partners that implies unmistakably a conscious sharing of aim and design. The same thing is shown by the way many starfishes have of letting themselves drop from steep rocks and cliffs in order to save the trouble of laborious climbing down. In such cases, before they relinquish their hold and drop, they let go with three or four arms, holding fast until the last moment with the remaining, as if to calculate the leap.

"My observations on this subject have inclined me to think that matters of concerted action with starfish have not infrequently to be effected by first obtaining the assent of an individual partner that is willing. It is known that these creatures sometimes divide themselves voluntarily into a three-armed and a two-armed portion, which may be regarded as the violent dissolution of business and domestic relations once happy, but grown inharmoonious. A starfish will often cast off one of its arms and leave it behind, perhaps because the member is not found agreeable to live with. If a rubber band or string is fastened around an arm of one of these animals and it cannot push the annoyance off with its other arms the starfish will throw the troublesome arm away, not desiring to retain the companionship of such a cripple. Starfish are like human beings in many ways. Then the animal which has thus deprived itself of a ray grows a new one in place of the old.

"As for the arm that is dropped it promptly proceeds to grow four new arms, thus becoming a whole starfish itself. Being the biggest it is presumably for a long time the boss of the five, which must be gratifying. A few years ago people who caught starfish in the oyster beds destroyed them, as they thought, by cutting them in halves and throwing them overboard, but the process was not very effective, inasmuch as everyone thus treated promptly becomes two."

PRECEPT AND PRACTICE.

An Old Story That Has a Moral Even in These Days.

"It happened at Athens, during a public presentation of a play in honor of the commonwealth, that an old man came too late for a place suitable to his age and quality," relates a writer in the Lutheran. "Some of the young men, who observed the difficulty and confusion he was in, made signs to him that they would accommodate him if he came where they sat. The old man, who had been through the crowd accordingly for the seat proffered him. But when he came to the seats to which he was invited the fest was to close and expose him as he stood out of countenance before the audience. The frolic went round all the Athenian benches. But on these occasions there were also particular places assigned to foreigners. So, when the old man skulked toward the boxes appointed for the Lacedaemonians, that honest people, more virtuous than polite, rose all to a man and, with the greatest respect, received him amongst them. The Athenians, being suddenly touched with a sense of Spartan virtue and their own degeneracy, gave a loud applause of admiration. Then the old man, as soon as the noise subsided, cried out: 'The Athenians understand what is good, but the Lacedaemonians practice it.'"

Marriage in Heligoland.

The facilities for marriage in Heligoland have been greatly curtailed since it has become a German possession. Among other conditions both parties must produce certificates of birth in order to prevent Jews being married there. All who are under twenty-five must produce a legally attested written consent of parents, or, if these are dead, a certificate of their death. Widows or widowers must produce the death certificate of the deceased wife or husband, and, if they have children, prove that the property willed to those children is securely settled upon them. The entire expense of a marriage in the island is about two hundred marks. In spite of these conditions marriage in Heligoland is a much simpler and easier affair than in Germany.

Famous Names Extinct.

There is not now living a single descendant in the male line of Chaucer, Shakespeare, Spenser, Milton, Cowley, Butler, Dryden, Pope, Cowper, Goldsmith, Byron or Moore; not one of Sir Philip Sidney, nor of Sir Walter Raleigh; not one of Drake, Cromwell, Hampden, Monk, Marlborough, Peterborough or Nelson; not one of Bolingbroke, Walpole, Chatham, Pitt, Fox, Burke, Grattan or Canning; not one of Bacon, Locke, Newton or Davy; not one of Hume, Gibbon or Macaulay; not one of Wordsworth, Keats, Shelley or Byron; not one of Burns, Scott or Byron; not one of David Garrick, John Kemble or Edward Keen.

MISCELLANEOUS.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. The old Sarsaparilla attempts to reach this condition by attacking the blood with the drastic mineral "potash." Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Charles Lee, of Bennett's Third and Market Sts., & F., writes: "I took liver-vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced me up generally, and now my thing is now working full and regular."

JOTTINGS.

The "thunderous vein's" location is not precisely known, but is probably not far removed from a fellow's funny bone. Order for from J. F. Aitken.

"I have a weight upon my mind," I overheard him say. "What's the matter?" "I'll keep the wind from blowing it away," Cigars, cigarettes and tobacco at C. A. Thurston's news depot.

Still find their way—It is a long time since good men began to preach the honesty in the money, but the big potatoes still find their way to the top of the sack. Board at the Riverside and you needn't bother about that.

Clark, in a Chicago store—Jim, see if the delivery wagon is at the door. Jim, on his return—Yes, sir, Clerk, to fair customer—Yes, Miss Liveways, we can send your slippers home immediately. Bear 3 cents a glass at Jake Be ker's. Hot lunch daily.

A quiet place is this, with much to do. In this sweet spot, not far from ocean's shore, you walk and promenade, and when you're through you change your clothes and go and walk some more. Eye glasses and spectacles fitted to any eyes at Richard Herz's.

A Wonder Worker.

Mr. Frank Hoffman, a young man of Burlington, Ohio, states that he has been under the care of two prominent physicians, and as of their treatment until he could not get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs, Colds and all the time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is to-day enjoying good health. If you have a Cough, Lung or Chest trouble try it. We guarantee satisfaction. Trial bottle free at W. Pinniger's drugstore.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts. and \$1 per bottle at Pinniger's drug store.

A Cure for Sick Headache.

This distressing complaint is due to an inactive or sluggish liver with congested bowels which derange the stomach and disturb the nervous system, causing dizziness and an oppressive dull pain in the head, often so severe as to prevent all rest or sleep. One of Dr. Gunn's Improved Liver Pills will relieve you of all the pain and misery and a few more doses will correct the liver and stomach and regulate the bowels. While these pills are sold so easily taken, and mild and gentle in their action there is no medicine made that so effectively cures sick headache. 25 cents a box. Sold by S. J. Hodgkinson.

FIGHTING FOR FRUIT.

An Energetic Crusade Necessary Against Its Enemies.

At a recent meeting of the Directors of the State Board of Trade the importance of a constant and determined fight against fruit pests was discussed, and it was ordered that public attention be called to the subject. It was stated that it had become impossible to obtain a decent apple at Ogden and that it would soon be as bad at Honey Lake. Different valleys in Nevada are beginning to be troubled, and it will require a constant and bitter study to keep out the destroyers. Farmers and others should not set out any more trees that they can attend to properly, for they will not only breed pests which will ruin their own orchards, but those of their neighbors. Some legislation on this subject may become necessary, as it has been in other States.

The Agricultural Experiment Station is ready to aid our fruit growers all they can, and a department is maintained under the charge of Professor Hillman, who has already issued several valuable bulletins on these matters.

Insect pests can be controlled by modern methods and appliances, and if timely information is sent to the Station relative to the appearance, marked financial profits may result to fruit growers and to farmers.

One of the problems in the management of this department is how to organize a force for securing information promptly. It is felt that teachers and scholars in rural districts could make themselves extremely useful to the community by taking part in this movement. Let the children be encouraged to collect and submit to their teachers specimens of new and strange forms of insect life, and let the teachers devote an hour or two of school time, now and then, to explaining the life habits of insects which may threaten to cause trouble in any neighborhood.

The entomologist of this station will mail to teachers detailed and comprehensive descriptions of the various stages of development of any specimens received here, and in cases of need he will, if possible, visit the localities, address schools and demonstrate by field work the course to be pursued in combating any dangerous pest.

Directions for sending insect pests are as follows: Insects should be sent by mail in close, strong boxes—tin or wood. A little cotton with the insect will prevent injury. In case larvae, pupae or grubs are sent, enclose their food plants should be enclosed with them. Any information regarding insects sent will be gratefully received and may prove very valuable; state where found, damage done, and any other facts.

BIG INDIANS.

Seven Cheyenne Chiefs En Route to Interview the Crazy Messiah.

Seven Cheyenne Indian Chiefs came in from the Pyramid Lake Reservation last night en route to the Walker Lake Reservation where they go to interview Jack Wilson, the so-called Messiah. They were all shapely big fellows, fully six feet tall, and decorated with feathers and rings. White Dog resembled a vicious bull, the ring in his nose looked as if it was waiting for a chain. Tall Bull is all his name signifies, and Tall Bull should get up a company of warriors to go scalp hunting, he looks as though he would put the government to a good deal of trouble to suppress him. The others were Brown Bear, Curious Horn, Old Crow, Magpie and Frank Murphy. They all carried rifles and traveled with an air of importance that attracted a good deal of attention from the white population as well as among the Washoes and Putes. Red Dog could get a string of mahalas a mile long if he should conclude to travel as a maharajah. A gay and festive Wahsien said, "Heep good man, like 'um poety good," as she stood admiring his manly form.

DIPHTHERIA.

Clean Up and Check the Horrible Disease Where It Is.

The Commissioners are seriously considering whether or no it would not be the safer plan to burn the house occupied by the diphtheria-stricken Fraser family, together with its contents, in order to guard against the possible spread of the disease. Clean up your back yards and alleys and remove the filth that is always accumulating, is the best way to prevent its spread. Everyone interested in the town should appoint himself a committee of one to see that all decaying vegetables and pestilence breeding filth is removed at once. Diphtheria is more to be dreaded than small-pox, and every means should be adopted that will tend to purify and cleanse the town.

The Carson Small-pox.

From passengers arriving last evening from Carson the GAZETTE learns that the two Indian small-pox patients were removed to the post-house and the Stewart Institute thoroughly fumigated. The Indians have nearly all left and scattered into the country. Every precaution has been taken to prevent the spread of the disease. Jim Burge arrived there and reported to Dr. Lee at 1 o'clock Monday morning.

Men Wanted.

The Pioche Record of the 6th inst. says: One hundred and fifty men are wanted by the Pioche Con. M. & R. Company this month. Of this number 100 must be practical miners who will be engaged here and in vicinity taking on ore from the company's various mines to have a good supply at the smelters when starting. Fifty additional men can find work along the line of the Jackrabbit railroad.

BREVITIES.

Local and General Intelligence.

See 50 cent column for depots for Tahoe Bitter Water.

Call at the Merchant's Exchange for cool summer drinks.

Uncle John Soodgrass was stricken with paralysis last Saturday and is speechless now.

Go to John Bel's shop and take a bath in one of his elegant porcelain tubs and you will feel like a new man.

Dazzle—"Why do they say truth is stranger than fiction?" Razzle—"Because some people see so little of it that it seems strange."

Judge J. P. Hoge, who was Terry's attorney after the duel with Broderick, is lying fatally ill in San Francisco. One of the old timers are dropping off.

The Sacramento Bee says: Tom Fitch is writing a novel. He couldn't pen anything stranger or more interesting than a truthful record of his own life.

"I wonder why all these timid fellows are marrying brunettes?" "Probably because 'faint hearted' men won't buy 'em."

Beautiful facts are they that wear the light of a pleasant spirit there, matters little if dark or fair. For a cool and refreshing drink go to Pinniger's soda fountain.

The Silver State of yesterday says: Two women tramps were in town yesterday and kept the boys on the move keeping out of their way. They got enough of them, however, to pay their fare to Battle Mountain, and left for that place in the afternoon.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, curative power superior to any other article of the kind.

The Pioche Record speaks thus of one kind of insect not known by that name in Reno. It says: The aquatic bug, a familiar insect to all householders, are causing considerable loss of sleep to our people. One plague at a time is about all we can comfortably stand, but when it is augmented by our bodies being converted into race tracks, we are very prone to imagine there is no hereafter.

OUT AGAIN.

Thomas Williamson Turned Loose On a Writ of Habeas Corpus.

Judge Boardman succeeded in getting his man Thomas Williamson, arrested the other day at Derby's ranch for forgery, a crime said to have been committed in Canada, out on a writ of habeas corpus. A Pinkerton detective is on his way from Toronto now with extradition papers to take Williamson back. This is the second time they have come for him, but will most likely be obliged to make another trip before pulling him into their net. Pinkerton men will feel like giving Nevada a wide birth. One of their choicest flowers was plucked from their force in the person of Thomas Horn, who was tried here a few weeks ago for robbing White's farm house, and escaped conviction only on a tie vote of the jury. Horn will be called upon to face the music again at the next term of court.

DEATH OF A PROSPECTOR.

Presumed to Have Died While Quenching His Thirst.

The Pioche Record of the 6th inst. says: About the 13th of July, William Davis, a prospector and miner, left Eldorado to prospect for mines in the vicinity of Colville. A few days after some Indian women and children found his body at the mouth of the Las Vegas Wash, near the Colorado river. Davis' burro was found near by, still with the saddle on. Mr. Davis was an able-bodied man about 35 years of age, and accustomed to the country. There was nothing to indicate that he had met with foul play of any character and the supposition is that he became overheated on the desert without water before reaching the river, and that water, when finally obtained, failed to save his life.

Death of Judge Hoffman.

Ogden Hoffman, Judge of the United States District Court, died at St. Luke's hospital, in San Francisco on Sunday morning at 5:45 o'clock after an illness of four months. Valvular disease of the heart was the cause of his illness, and medical science could do little to stay its progress. Judge Hoffman was one of the most brilliant men who occupied the seat on the bench in California. He was a member of one of the most distinguished of the older American families, his father being Ogden Hoffman of New York, long a leader of the American Bar. Judge Hoffman was born in New York city, October 15, 1822.

Sad Mission.

T. H. Goodman, General Passenger Agent of the S. P. R. R., passed Reno this morning in his private car Francisco, conveying the remains of his deceased wife east for burial. It is a sad mission and evidently weighs heavily upon him.

To the Public.

CARDU MILES, Texas, June 5, 1891.—From my own personal knowledge, I can recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy for Cramps in the stomach, also for diarrhoea and flux. It is the best remedy I have seen used and the best selling, as it always gives satisfaction. K. B. CHAMBERLAIN, 25 and 30 cent bottles for sale by J. B. McCallough, druggist.

For Over Fifty Years.

Mrs. Winstlow's Sooty STEEP has been used for children teething. It soothes the child, soothes the gums, allays all pain, soothes the bowels, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

ABSOLUTELY PURE

PERSONALS.

Robert Lowers returned this morning from his vacation trip to California.

Henry Higgins left for Sacramento last night on a visit of indefinite length.

E. J. Parkinson of the Carson Tribune passed through to California last evening.

Louis Bevier, the accountant at the Stewart Institute, was in Reno last evening.

M. Cohn of Carson came over to Reno last evening and returned this morning.

Miss Wason of Carson has been elected teacher of the Candelaria public school.

Wm. Woodburn returned from San Francisco this morning and went on to Carson.

Mr. Harrison, county Assessor of Lassen, came in from Susanville last night and left for San Francisco on a visit of a health seeking character.

John N. Lodstad of San Francisco, who is interested in the artesian wells in Honey Lake Valley, accompanied by C. C. Horning, who is also interested in the same project, came in from the north last evening and went on to San Francisco via Carson and Lake Tahoe this morning. They are both very pleasant gentlemen to meet and are progressive and energetic young business men, who will surely be rewarded by their efforts to reclaim a portion of Honey Lake Valley. The gentlemen are boring the second well and are down now to a depth of 325 feet and expect to strike water any day now.

Diphtheria.

The Silver State of yesterday reports the dread disease in Winnemucca. It says: A case of diphtheria is reported in town, the eldest son of Mr. and Mrs. Thomas McEnerny being ill with that disease. Dr. Cartwright says it is not of the malignant type, however, and does not anticipate the spread of the disease if proper precautions are taken.

Evening Mails.

The mails that arrive in the evening from Carson and the south at 8:45 o'clock, and also those which arrive from the east at 9:05 o'clock, are all distributed by our Nasby so that box owners can obtain their mail if they will go for it before 10:30 o'clock, at which time the front doors are closed.

Entitled to the Best.

All are entitled to the best their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when constive and bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

Wee to the Conqueror.

The Romans cried "Vas Vici!" "Wee to the conqueror!" at their triumphs. To-day many of us are being conquered—our place, our rest and daily appetite wrested from us by that invader of the stomach, dyspepsia. Suffer we use for from a hundred sources. Temporarily we may sometimes obtain relief by a heavy meal, the simplest indigestion in diet, and the near by still with the saddle on. Mr. Davis was an able-bodied man about 35 years of age, and accustomed to the country. There was nothing to indicate that he had met with foul play of any character and the supposition is that he became overheated on the desert without water before reaching the river, and that water, when finally obtained, failed to save his life.

From San Antonio.

ACQ. HORNUNG, a well known manufacturer of boots and shoes at 320 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in 20 minutes with a second dose, and before the doctor could get to where I was, I did not need him. This Remedy shall always be one of the main stays of my family." For sale by J. B. McCallough, druggist.

Make Yourself a New Body.

Purge away the old, diseased and worn out body, said Dr. Brandreth. Replace the discharged matter of the system with good, simple food and thus build up a new and sound body in place of one feeble and diseased. Every man should know that he must be "renewed" at least once in two or three years, else he would soon break down completely. This renewing process is easily brought about by purging with Brandreth's Pills. They put new life into old bodies.

Sold in every drug and medicine store.

Brandreth's Pills are purely vegetable, absolutely harmless and safe to take at any time.

For Over Fifty Years.

Mrs. Winstlow's Sooty STEEP has been used for children teething. It soothes the child, soothes the gums, allays all pain, soothes the bowels, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

\$1.50 Black Henrietta reduced to \$1 per yard.

This will be an Opportunity Seldom Offered to buy Back Goods at such Low Prices.

We have reduced the prices on ALL GRADES OF CARPETS, and desire to call special attention to this fact. Our stock of Wall Paper shares alike in these reductions, and those needing anything in the Wall Paper line should avail themselves of this opportunity.

There will be great bargains in all of our Dress Goods, as the shelves must be cleared for Fall Goods, which will commence to arrive soon. Ladies and housekeepers in general requiring anything in the Dry Goods, Carpet or Wall Paper line, should attend this Great Remnant Sale as early as possible, for every article comprising the balance of our immense Summer stock is offered at prices corresponding with the Sweeping Reductions noted above. Respectfully,

The Palace Dry Goods House
